# WellStat

## Air Quality Assurance for Commercial Spaces

### All In One Platform
Enterprise scalable across hundreds of devices, for visualization and analysis of both commodities and IAQ

### Certified Reliability
FCC tested and UL cetrtified sensors LEED, WELL, ESG and US Energy Policy Acts

### 14+ Sensors Per Device
Precision monitoring of PM, RH, $CO_2$ Formaldehyde, Ozone and more

### No Capital Outlay
Low cost subscription model

### Over The Air Calibration
Continuous remote sensor calibration requires no cleaning or maintentance

### Open APIs
Allows for BMS integration to create new operational procedures geared towards optimal air and optimal energy usage

Engineered for Buildings  •  Duct Mountable  •  Radio Connectivity

Secure  •  Zero Maintenance  •  Field Supported  •  Central Monitoring
