

EVERYDAY CLEANING & DISINFECTING

Over the coming days and weeks, building owners, property managers, and employers will begin the process of reoccupying properties and reopening businesses. We know it will be critical to clean and apply disinfectants to all hard surfaces often while returning to normal operations. The Center for Disease Control and Prevention (CDC) released the following everyday steps to cleaning your property.

How We Can Help

There is not a one-size-fits-all reoccupation strategy. Partner with Paul Davis to create a tailored COVID-19 cleaning solution best suited for your property in three steps:

1. Paul Davis performs a site inspection.
2. Paul Davis develops a COVID-19 cleaning plan utilizing EPA approved chemicals against COVID-19 and most common viruses.
3. A team of Paul Davis trained and IICRC certified biohazard technicians will perform cleaning plan in accordance with your needs.

Self-Help Tips to Clean and Disinfect

Note: Always wear disposable gloves to clean and disinfect

CLEAN

- Clean surfaces using soap and water.
- Practice routine cleaning of frequently touched surfaces.
- High touch surfaces include: Tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, sinks, etc.

DISINFECT

- Clean the area or item with soap and water or another detergent if it is dirty. Then, use disinfectant.
- Recommend use of EPA-registered household disinfectant and follow the instructions on the label to ensure safe and effective use of the product. Many products recommend:
 - Keeping surface wet for a period of time (see product label)
 - Precautions such as wearing gloves and making sure you have good ventilation during use of the product.
