Make the safer choice

Change to paper hand towels today to meet the new hygiene standard

70% of visitors wish more facilities offered paper hand towels as an alternative to air dryers.

Drying your hands with a jet air dryer produces more airborne droplets. Paper towels are the most hygienic way to dry hands by friction removing bacteria and the recommended choice in hygiene-critical environments.

Jet air dryers spread up to 10x more germs.

A majority of end-users prefer paper hand towels over air dryers.
User preference has shifted to paper hand towels³

<tr>
<td>33%</td>
<td>I feel unsafe entering a washroom with air dryers.</td>
</tr>
<tr>
<td>41%</td>
<td>I am less likely to go to places that do not offer paper hand towels as a hand drying alternative.</td>
</tr>
</tbody>
</table>

More benefits:
- **Quicker hand drying**: 62% of end-users say they stop drying their hands before completely dry as air dryers take too long to dry their hands³
- **Multi-use and comfort**: 75% of end-users say they use paper hand towels to avoid touching different surfaces in public restrooms³

Switching to paper hand towels has never been easier

Serve restrooms with different traffic flows, layouts and sizes with the same refill. Offering the same hygienic systems ensures that hand towels are enclosed, dispense 1 towel at a time and avoid run-outs.
